

Doug Needham

Data Scientist

I make data work. Data use-cases become obvious once the data is organized in the right way. My expertise is in the organization of data.

Data Scientist

09/2015 - Present

Mason, OH

Data Scientist

Cengage Learning

Accomplishment

- Applying mathematical techniques similar to that found in e-retail to look at student behavior in a new manner. Applications of findings are in learning analytics, product development, and Sales/Marketing initiatives.

09/2014 - 09/2015

Mason, OH

Data Consultant

Illumination Works.

Accomplishment

- Provided guidance for new implementation of Big Data appliance for credit card processing customer.
- Proved out an early Spark implementation for solving Network analysis problems.

10/2013 - 09/2014

Covington, KY

Data Consultant

Clear Measures

Accomplishment

- Designed data warehouse for understanding loan application origination processing through increased insight into both the application process as well as the approval process.

11/2011 - 10/2013

Bethesda, MD

Data Architect

3M

Accomplishment

- Implemented Cloud based infrastructure to migrate on-premise text processing system into cloud based interactive text processing pipeline. Reducing cost of implementation by 80%

08/2011 - 11/2011

New York, NY

Data Consultant

Rent the Runway

Accomplishment

- Provided analytical prototype for understanding geographic location, and patterns of use of our customers.

10/2008 - 08/2011

McLean, VA

Data Architect

Sunrise Senior Living

Accomplishment

- Optimized our cost analysis framework to understand the costs associated with our facilities and business units. This optimization provided better decision making tools for our executive team.

03/2008 - 10/2008

Washington, D.C.

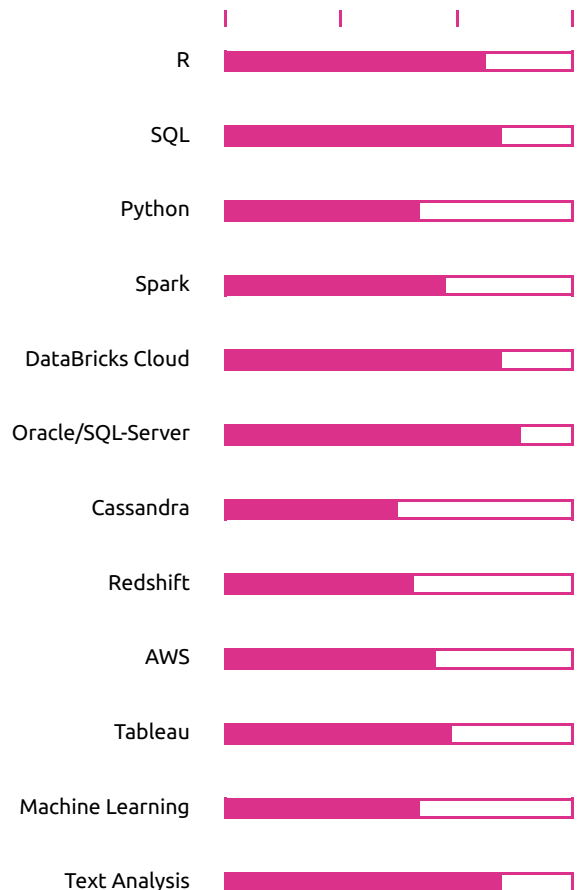

Data Management Consultant

Workplace/Company

Accomplishment

- Increased performance for news organization to provide for increased visibility in transcription and translation capabilities during heavy news cycles.

Skills & Competences

Personal Projects

Author

- bit.ly/DataStructureGraphBook | Treating a data architecture like a Social Network. Data transfers are connections and systems are actors.

Startup Advisor

- Advisor for startups in real-estate, home improvement, network security, marketing, and home network devices.

Kaggle

- <https://www.kaggle.com/dougneedham> | I tinker with Kaggle machine learning competitions when I have the time.

Achievements & Certificates

Corporal - United States Marine Corps

During my time in the Marine Corps, I was part of a team that deployed a mainframe in a trailer to support Desert Storm Logistical applications.

Coursera/Cloudera/DataStax/Neo4j
